Glucose Metabolism in gcr Mutants of *Saccharomyces cerevisiae*

H. UEMURA AND D. G. FRAENKEL

*Section of Gene Engineering, Department of Molecular Biology, National Institute of Bioscience and Human Technology, Tsukuba-shi, 305 Japan, and Department of Microbiology and Molecular Genetics, Harvard Medical School, Boston, Massachusetts 02115*

Volume 181, no. 15, p. 4719–4723, 1999. Page 4720, Table 1, footnote b, line 5: “Tpi 3.2 (22)” should read “Tpi 0.085 (22).” Therefore, the $V$ values for Tpi shown in Table 1 should be multiplied by 0.027.
