Origins of the 2,4-Dinitrotoluene Pathway

Glenn R. Johnson, Rakesh K. Jain, and Jim C. Spain

Air Force Research Laboratory, U.S. Air Force, Tyndall Air Force Base, Florida 32403

Volume 184, no. 15, p. 4219–4232, 2002. Page 4222: In Fig. 2, the genes designated *dntR* and *dntF* should be labeled ORF12 and ORF13, respectively.

Processing Endoribonucleases and mRNA Degradation in Bacteria

David Kennell

Department of Molecular Microbiology, Washington University School of Medicine, St. Louis, Missouri 63110

Volume 184, no. 17, p. 4645–4657, 2002. Page 4647, column 1, lines 42–45: The sentence should read “For example, one message in the T7 early polycistronic mRNA, as well as a few late messages, yields increased protein from RNase III cleavage while the others are not affected by such cleavages (41).”
