

**CONTENTS • APRIL 2020 • VOLUME 202, NO. 7**

**COVER IMAGE**

*Cover photograph:* A composition of helical structures formed by an FtsZ variant lacking its C-terminal linker fused to mNeonGreen upon induction in the presence of overabundant FtsA in *Caulobacter crescentus*. Image stacks were acquired using three-dimensional structured-illumination microscopy and used to generate maximum intensity z-projections. (See related article at e00693-19.) **SPOTLIGHT**

**Articles of Significant Interest in This Issue** e00076-20

**COMMENTARY**

**Extracellular Electron Transfer: Respiratory or Nutrient Homeostasis?** e00029-20  
*Lars J. C. Jeuken, Kiel Hards, Yoshio Nakatani*

**MINIREVIEW**

**Type II Toxin-Antitoxin Systems: Evolution and Revolutions** e00763-19  
*Nathan Fraikin, Frédéric Goormaghtigh, Laurence Van Melderen*

**RESEARCH ARTICLES**

**Structure of a Core Promoter in *Bifidobacterium longum* NCC2705** e00540-19  
*Tomoya Kozakai, Ayako Izumi, Ayako Horigome, Toshitaka Odamaki, Jin-zhong Xiao, Izumi Nomura, Tohru Suzuki*

**Substrate Interaction with the EssC Coupling Protein of the Type VIIIb Secretion System** e00646-19  
*Nicole Mietrach, Diana Damián-Aparicio, Benjamin Mielich-Süss, Daniel Lopez, Sebastian Geibel*

**The CtrA Regulon of *Rhodobacter sphaeroides* Favors Adaptation to a Particular Lifestyle** e00678-19  
*José Hernández-Valle, Alejandro Sanchez-Flores, Sebastian Poggio, Georges Dreyfus, Laura Camarena*

**The Intrinsically Disordered Region of ExbD Is Required for Signal Transduction** e00687-19  
*Dale R. Kopp, Kathleen Postle*

**Genomic Differences between *Listeria monocytogenes* EGDe Isolates Reveal Crucial Roles for SigB and Wall Rhamnosylation in Biofilm Formation** e00692-19  
*Chih-Yu Hsu, Lynne Cairns, Laura Hopley, James Abbott, Conor O'Byrne, Nicola R. Stanley-Wall*

**FtsA Regulates Z-Ring Morphology and Cell Wall Metabolism in an FtsZ C-Terminal Linker-Dependent Manner in *Caulobacter crescentus*** e00693-19  
*Jordan M. Barrows, Kousik Sundararajan, Anant Bhargava, Erin D. Goley*
