

# JOURNAL OF BACTERIOLOGY

## Contents for March

Role of Inorganic Phosphate in Thiosulfate Metabolism by <i>Thiobacillus thioparus</i> . MELVIN SANTER, MAURICE MARGULIES, NORMAN KLINMAN, AND RONALD KABACK.....	313-320
Genetic Variation in the Sex Factor of <i>Escherichia coli</i> . EDWARD A. ADELBERG AND SARAH N. BURNS.....	321-330
Electron Microscopy of Ultrathin Sections of <i>Schizosaccharomyces octosporus</i> . II. Morphological and Cytological Changes Preceding Ascospore Formation. S. F. CONTI AND H. B. NAYLOR.....	331-340
Occurrence and Function of Isocitritase and Malate Synthetase in Bacteria. HENRY C. REEVES AND SAM AJL.....	341-345
Oxidation of Mono- and Disaccharides to Aldonic Acids by <i>Pseudomonas</i> Species. RONALD BENTLEY AND LIBOR SLECHTA.....	346-355
Modified Benzidine Test for the Detection of Cytochrome-Containing Respiratory Systems in Microorganisms. R. H. DEIBEL AND JAMES B. EVANS.....	356-360
Influence of Preheating, pH, and Holding Temperature upon Viability of Bacterial Spores Stored for Long Periods in Buffer Substrates. FRED R. EVANS AND HAROLD R. CURRAN.....	361-368
Use of Shaken Cultures in the Assimilation Test for Yeast Identification. DONALD G. AHEARN, FRANK J. ROTH, JR., JACK W. FELL, AND SAMUEL P. MEYERS.....	369-371
Studies on Immunity to Toxins of <i>Clostridium botulinum</i> . VI. Purification and Detoxification of Type D Toxin and the Immunological Response to Toxoid. MATTEO A. CARDELLA, JAMES T. DUFF, BILLY H. WINGFIELD, AND CARL GOTTFRIED.....	372-378
Cytopathic Index: A New Method for the Quantitative Evaluation of Tissue Culture Infectivity of Different Virus Strains. D. BALDUCCI, G. ANDREONI, G. B. GORI, L. CASTELLI, AND G. MANCINI.....	379-383
Prevention of Amethopterin Inhibition by 2-Methyladenine. MAUDE E. LOEBECK. Sensitivities of Different Bacteriophage Species to Ionizing Radiations. G. BER- TANI.....	384-386 387-393
Permeability of Azotobacter to Succinate and Malate. ROY REPASKE, JOAN SHROAT, AND DAVID ALLMAN.....	394-405
Influence of Ingested Foods on the Oral Toxicity in Mice of Crystalline Botulinum Type A Toxin. CARL LAMANNA AND CHARLES E. MEYERS.....	406-410
Fermentation of Glucose-C <sup>14</sup> and Xylose-C <sup>14</sup> by Various Strains of <i>Leuconostoc mesenteroides</i> . A. C. BLACKWOOD AND E. R. BLAKLEY.....	411-416
Electron Microscopy of Ultrathin Sections of <i>Schizosaccharomyces octosporus</i> . III. Ascosporegenesis, Ascospore Structure, and Germination. S. F. CONTI AND H. B. NAYLOR.....	417-425
Degradation of Isoprenoid Compounds by Microorganisms. I. Isolation and Char- acterization of an Isoprenoid-Degrading Bacterium, <i>Pseudomonas citronellolis</i> n. sp. WERNER SEUBERT.....	426-434
Comparative Study of the Agglutinogens of the Endospores of <i>Bacillus anthracis</i> and <i>Bacillus cereus</i> . CARL LAMANNA AND DANIEL EISLER.....	435-441
Effect of Mycostatin and Fungizone on the Growth of <i>Histoplasma capsulatum</i> in Tissue Culture. DEXTER H. HOWARD.....	442-449
Production of Toxin <i>in Vitro</i> by <i>Bacillus anthracis</i> and Its Separation into Two Components. CURTIS B. THORNE, DOROTHY M. MOLNAR, AND RICHARD E. STRANGE.....	450-455
NOTES:	
Staphylococcal Antibody Production in Response to Injections with <i>Listeria monocytogenes</i> . H. J. WELSHIMER.....	456-457
Differential Counting of Mixed Bacterial Populations. DAVID J. HENTGES AND MACDONALD FULTON.....	457-458
Spheroidal Forms of <i>Bacillus megaterium</i> Induced by Potassium Tellurite. TOMIO KAWATA, THEODORE SALL, AND STUART MUDD.....	459
Production of Antibacterial Substances by Benthic Tropical Marine Algae. MARY BELLE ALLEN AND E. YALE DAWSON.....	459-460
Instructions to Authors.....	3-4
